Also available:
T8 Tropical Daylight lamps ideal for freshwater tropical aquariums to stimulate lush plant growth.

Spectrum map

The light spectrum of the Community Daylight has been specifically developed to help highlight the colours of ornamental fish, without producing excess light that algae can use in aquariums. This makes this lamp ideal for Tropical or coldwater aquariums with fish only and decor displays or those with low light level requirement aquarium plants.

Community daylight

Fluorescent tube

- Enhances colours of your aquarium
- Reduces algae growth

Goldfish & tropical fish

LIFE SUPPORT

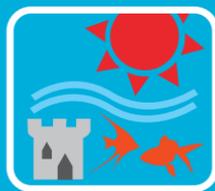

FOR TROPICAL & COLDWATER AQUARIUMS

What & why?

Community daylight lighting

Ideal for coldwater and tropical community aquariums. Brings out the colours in the aquarium while reducing algae.

Fitting

T8
Fits into all traditional T8 fluorescent aquarium lighting fittings. Follow aquarium manufacturer instructions.

Top Tip...

Replace the T8 lamp every 12 months to ensure the best possible performance for your aquarium.

Multi-language

Was und warum?

Community Tageslichtbeleuchtung

Ideal für Kaltwasser- und tropische Aquarien. Hebt die Farben im Aquarium hervor und reduziert das Algenwachstum. Dieses Lichtspektrum wurde speziell entwickelt, um die Farben von Zierfischen zu betonen, ohne zu viel Licht zu erzeugen, das das Algenwachstum in Aquarien begünstigen könnte.

¿Qué y por qué?

Iluminación de día para acuarios comunitarios

Ideal para acuarios tropicales y de agua fría. Destaca los colores del acuario y reduce la formación de algas. El espectro de luz ha sido especialmente desarrollado para resaltar los colores de peces ornamentales sin producir un exceso de luz que permita el crecimiento de algas dentro del acuario.

Description & atouts

Éclairage de jour pour aquarium communautaire

Ideal pour les aquariums tropicaux et d'eau froide. Les couleurs de l'aquarium sont avivées tout en limitant les algues. Ce spectre lumineux a été tout particulièrement développé pour accentuer la couleur des poissons d'ornement, sans produire de lumière excessive pouvant favoriser la prolifération des algues dans l'aquarium.

Cosa e perché?

Illuminazione Community

Ideale per acquari con acque fredde e acquari tropicali. Questa illuminazione esalta i colori dell'acquario, minimizzando la formazione delle alghe. Lo spettro luminoso di questa illuminazione è stato sviluppato specificamente per esaltare i colori dei pesci ornamentali, senza generare gli eccessi di luce favoriscono la formazione di alghe nell'acquario.
