Also available: T8 Community Daylight lamps ideal for goldfish & community aquariums that enhance colours of your aquarium.

Spectrum map

The light spectrum of the Tropical Daylight tube was the first ever to be specifically produced for use over an Aquarium - the spectrum delivered by the unique triphosphor mix is designed to promote healthy plant growth and highlight the colours of tropical fish.

Tropical daylight Fluorescent tube

- Simulates tropical daylight
- Promotes healthy plant growth
- Enhances fish colours

Planted tropical aquarium

LIFE SUPPORT FOR TROPICAL AQUARIUMS

What & why?

Tropical daylight lighting

Ideal for freshwater tropical planted aquariums. Simulates tropical daylight promoting healthy plant growth and enhances fish colours.

Fitting

T8

Fits into all traditional T8 fluorescent aquarium lighting fittings. Follow aquarium manufacturer instructions.

Top Tip...

Replace the T8 lamp every 12 months to ensure the best possible performance for your aquarium.

Multi-language

Was und warum?

Tropisches Tageslicht

Ideal für Aquarien mit tropischen Süßwasserpflanzen. Simuliert das tropische Tageslicht und fördert so ein gesundes Pflanzenwachstum und hebt die Farben der Fische hervor. Dieses Lichtspektrum war das erste, das speziell für den Gebrauch über Aquarien produziert wurde, und einen einzigartigen Triphosphor-Mix erzeugt.

¿Qué y por qué?

Luz tropical

Ideal para acuarios plantados de agua dulce con vegetación tropical. Simula la luz tropical fomentando el crecimiento saludable de las plantas y realizando los colores de los peces. El espectro de la luz fue el primero creado específicamente para su uso en acuarios por la mezcla única de tonos del tubo fluorescente.

Description & atouts

Éclairage tropical de jour

Idéal pour les aquariums tropicaux d'eau douce accueillant des plantes. Simulation d'un éclairage tropical de jour permettant une croissance saine des plantes et une couleur vive des poissons. Ce spectre lumineux est le premier à avoir été spécifiquement élaboré pour les aquariums, placé sur le dessus pour favoriser une combinaison triphosphorée unique.

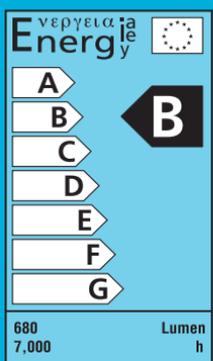

Cosa e perché?

Luce tropicale

Ideale per acquari d'acqua dolce con piante tropicali. Simula la luce del giorno tipica delle zone tropicali, favorendo una crescita sana delle piante e migliorando i colori dei pesci. Questo spettro luminoso è il primo realizzato specificamente per l'impiego negli acquari e offre un esclusivo mix di luce trifosforica.
